PROFESSIONAL SUMMARY

Software developer and technology leader with experience in React Native, AWS Amplify and full-stack development. Experienced in overseeing development teams and project management for the delivery of scalable mobile and web applications on time. Proficient in enhancing system performance, mentoring developers, and aligning technical solutions with business objectives. Skilled in driving innovation, streamlining operations, and creating user-friendly products in high-speed environments.

CORE SKILLS

- Programming: JavaScript, TypeScript, Python
- Frameworks: React Native, React.js, Next.js
- Backend: AWS Amplify GEN-2, Firebase, Node.js
- Tools: GitHub, Jira, Trello, Figma, Canva, Photoshop
- Database: MySQL, MSSQL, DynamoDB, PostgreSQL
- Other: REST APIs, Mailer Lite, HubSpot CRM, Xcode

PROFESSIONAL EXPERIENCE

Technology Lead (Mobile App Development) | WSNIT | USA | Remote | 2024 - Present

- Lead design, development, and deployment of mobile applications using React Native.
- Manage and mentor developers; use AWS Amplify for authentication, analytics, and backend.
- Collaborate with UI/UX, product, and backend teams on user-centric solutions.
- Improve performance, scalability, and maintainability; own agile planning and sprints.

Manager | ElanceOne | USA | Remote | 2025 - Present

- Lead cross-functional teams across development, marketing, and business development.
- Oversee end-to-end delivery from planning through deployment.
- Align product development with market needs and growth strategy.
- Manage agile workflows, team performance, and client satisfaction.

Computer Science Teacher (Secondary) | Trungram International Academy | Kathmandu | 2025 - 2026 (Part-time)

- Taught Computer Science (HTML, Python, and core programming) to 121 students.
- Used project-based teaching to improve problem-solving and academic performance.

Associate Engineer (Database Migration & QA) | Pioneer Associate Ltd. Pvt. | Lalitpur | 2023 - 2024

- Migrated data from Excel and third-party systems into COSYS with compliance.
- Developed and optimized SQL queries, procedures, and scripts.
- Performed QA/QC on features and releases; supported client migration issues.

Secondary Level Computer Teacher | Basundhara National Academy | Kathmandu | 2021 - 2022

- Delivered curriculum-based Computer Science lessons and interactive sessions.
- Introduced programming, databases, web design, and Photoshop fundamentals.

SELECTED PROJECTS
